## 8th Grade

## 3.4-Slope Intercept Form

## Learning Target

Students will be able to graph and write equations in slopeintercept form.

## Standards

8.EE. 6 Use similar triangles to explain why the slope $m$ is the same between any two distinct points on a nonvertical line in the coordinate plane; derive the equation $\mathrm{y}=$ mx for a line through the origin and the equation $y=$ $m x+b$ for a line intercepting the vertical axis at $b$.

## Instruction

## Warm Up: \#45

Vocab: slope-intercept
form ( $\mathbf{y}=\mathbf{m x} \mathbf{+ b}$ )

- walk through flipchart 3.4

Extra Practice

- practice real world
scenarios where students must write an equation in $\mathrm{y}=$ $\mathrm{Mx}+\mathrm{b}$, interpret the slope and $y$-intercept, use equations to solve problems
- take 3.1-3.4 Quiz

Students will be able to graph and write equations in slopeintercept form.

## Standards

8.EE.6 Use similar triangles to explain why the slope $m$ is the same between any two distinct points on a nonvertical line in the coordinate plane; derive the equation $y=$ $m x$ for a line through the origin and the equation $y=$ $m x+b$ for a line intercepting the vertical axis at $b$.

## Instruction

## Warm Up: \#46

Vocab: slope-intercept form ( $\mathbf{y}=\mathbf{m x}+\mathrm{b}$ )

- review how to write equations in slope-intercept form, what each part of the expression represents, and ask if there are any questions the students have.
- Practice Quizizz that will have them practice more with the slope-intercept form. The Quizizz will have students practicing:
- Writing a linear expression when given a graph.
- Writing a linear expression for a real world scenario
- Using an expression in slope-intercept form to find ordered pairs.

## Assessment

None
Attachments
$m x+b$ for a line intercepting the vertical axis at $b$.

## nstruction

## Warm Up: \#47

## Vocab: slope-intercept

form ( $\mathrm{y}=\mathrm{max}+\mathrm{b}$ )

- Slope Intercept Form

Quizizz final practice

- 21 questions
- grade into the grade book
(allow redemption questions)

## Assessment

Quizizz Game

| Vocab: standard form, |
| :--- |
| slope-intercept form, $y$ - |
| intercept, slope |
| - assign students the 3.6 |
| EDPuzzle that will teach the |
| students: (1.) converting |
| equations from standard form |
| to slope-intercept form, (2.) |
| writing expressions when |
| given a slope and one point, |
| (3.) writing expressions when |
| given two points, (4.) writing |
| expressions for real-world |
| scenarios |
| - assign and post notes with |
| examples so the students can |
| follow along |
| - start on 3.6 Go Formative |
| (make instant check so |
| students can receive instant |
| feedback while working with |
| the guest teacher) |
| Assessment |
| 3.6 Go Formative (due |
| Tuesday) |

Vocab: standard form, slope-intercept form, ypt, slope

- assign students the 3.6 zzzle that will teach the students: (1.) converting equations from standard form to slope-intercept form, (2.) writing expressions when given a slope and one point, given two points, (4.) writing expressions for real-world scenarios examples so the students can follow along
start on 3.6 Go Formative (make instant check so students can receive instant feedback while working with

Assessment

Tuesday)

| - Finish Diamond Heist |
| :--- | :--- |
| Escape Room |$\quad$| Stained Glass Window |
